

## Automotive Tablet Oscilloscope ATO Series DATASHEET

- 2 or 4 analog channels
- Max. 300MHz bandwidth
- Max. 2GSa/s sampling rate
- Up to 220Mpts memory depth
- 7500mAh large Li-ion battery
- Support electronic measurements for all vehicles

## PRODUCT OVERVIEW

ATO series oscilloscope is an oscilloscope dedicated to automotive maintenance and diagnostics. Equipped with professional automotive diagnostic functions, it comes with 2 and 4 channels, max. 300MHz bandwidth, up to 2GSa/s sampling rate and 220Mpts memory depth, delivers most powerful signal capture and analysis capability.

With 10.1-inch high-resolution full touch screen, large built-in battery, and Micsig's dedicated SigtestUI™ multi-tasking system, the ATO automotive oscilloscope making modern automotive diagnostics much easier than ever before.

- ◆ Professional automotive diagnostic tests
- ◆ Compact portable design, best for field work
- ◆ Large battery support continual field work
- ◆ Android-based OS, 32GB internal storage
- ◆ Switchable 1MΩ/50Ω input impedance
- ◆ Deep memory to display all signal details
- ◆ Comprehensive serial bus trigger & decoding
- ◆ Support USB, PC and SCPI control
- ◆ Hardware-based filter to eliminates interferences
- ◆ Support segmented storage acquisition

### Key Specifications

| Model                  | ATO3004                                                                                                                | ATO3002 | ATO2004 | ATO2002 | ATO1004 |
|------------------------|------------------------------------------------------------------------------------------------------------------------|---------|---------|---------|---------|
| Bandwidth              | 300MHz                                                                                                                 | 300MHz  | 200MHz  | 200MHz  | 100MHz  |
| Analog Channels        | 4                                                                                                                      | 2       | 4       | 2       | 4       |

| Sampling Rate (Max.)   | 2GSa/S                                                                                                                 | 2GSa/S  | 2GSa/S  | 1GSa/S  | 1GSa/S  |
| Memory Depth           | 220Mpts                                                                                                                | 220Mpts | 220Mpts | 110Mpts | 110Mpts |
| Input Impedance        | 1MΩ / 50Ω                                                                                                              |         |         | 1MΩ     |         |
| Support Tests          | Charging/Start Circuits, Sensors, Actuators, Ignition, Networks (CAN, CAN FD, LIN, Flexray, K line), Combination Tests |         |         |         |         |
| Bandwidth Filter       | Full bandwidth, Low pass                                                                                               |         |         |         |         |
| Interfaces             | USB 3.0/2.0 Host, USB Type-C, Grounding, HDMI, Trigger out                                                             |         |         |         |         |
| Display                | Industrial 10.1" TFT-LCD (1280*800)                                                                                    |         |         |         |         |
| Dimension / Net Weight | 265*192*50mm / 1.9kg (with battery)                                                                                    |         |         |         |         |
| Battery                | 7.4V, 7500mAh, Li-ion battery                                                                                          |         |         |         |         |

# CHARACTERISTICS & FEATURES

### Portable Design

ABS+TPU protector, pre-installed handstrap, only 1.9kg, one hand to hold.

### Robust Hardware

Upgraded core hardware, fast CPU, 32G internal storage, support video recording.

### Protocol Decoding

Standard RS-232/422/485/UART, CAN, CAN FD, LIN, SPI, I<sup>2</sup>C

### Smooth Touch

10.1" integrated seamless touch screen, ultra-high 1280\*800 resolution.

### Friendly UI

Fast Android OS experience, updated UI design, easy to use

### Auto-diagnostic Presets

Dedicated software for auto repair engineers, covering most of the auto repair tests.

### Auto-diagnostic Presets:

- **Charging/Start Circuit:** 12V&24V charging, Alternator AC Ripple, Ford smart Alternator, 12V&24V Start, Cranking Current
- **Sensor:** ABS, Accelerator Pedal, Air Flow Meter, Camshaft, Coolant Temperature, Crankshaft, Distributor, Fuel pressure, Knock, Lamda, MAP, Road Speed, Throttle Position
- **Actuators:** Carbon Canister Solenoid Valve, Diesel Glow Plugs, EGR Solenoid Valve, Fuel Pump, Idle Speed Control Valve (IAC), Injector (Petrol), Injector (Diesel), Pressure Regulator, Quantity Control Valve, Throttle Servomotor, Variable-speed cooling fan, Variable Valve Timing
- **Ignition:** Primary, Secondary, Primary + Secondary
- **Networks:** CAN High & CAN Low, CAN FD, FlexRay, K line
- **Combination Tests:** Crankshaft + Camshaft, Camshaft + Primary Ignition, Primary ignition + Injector Vol, Crankshaft + Camshaft + Injector Vol.+ Secondary Ignition

► Built-in large Li-ion battery, work where you work

► Complete connectivity (\*switch Power-off lock to ON for first-time use)

► The ATO series supports PC software + Mobile App (Android / iOS) remote control via USB to access internet for online upgrade, it also can be projected through HDMI port for demonstrations for training and education purpose.

# AUTOMOTIVE DIAGNOSTIC PRESETS

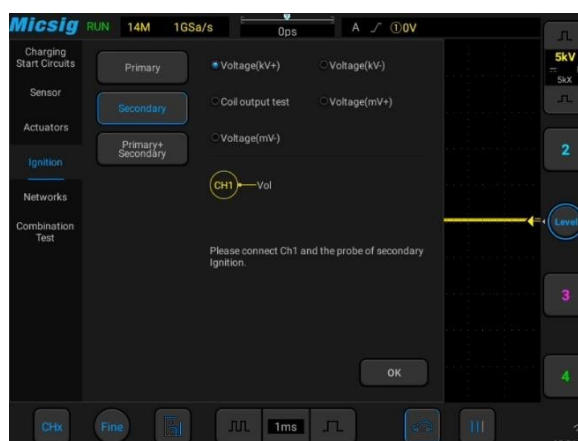

▲ Support 12/24V Charging & Start circuit, AC Ripple, Cranking Current tests

▲ Directly measure the waveform of various Sensors, by comparing with standard waveform, helps user easily find out possible problem.

▲ Support multiple Actuator tests, including Carbon Canister & EGR solenoid valve, Fuel Pump Injectors, Cooling fan, Pressure Regulator, etc.

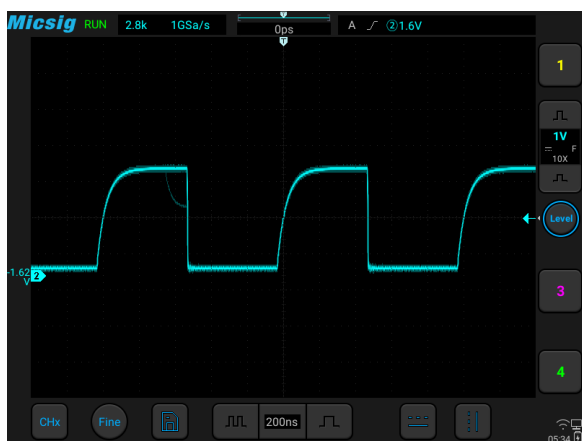

▲ The ignition system of a car is usually composed of primary and secondary coils and spark plugs. Can test both Primary and Secondary ignition signals, to find out possible malfunction.

▲ SATO is capable of acquiring and decoding CAN High /CAN Low, CAN FD, LIN, FlexRay, and K line signals, delivers professional Network communication tests on vehicles.

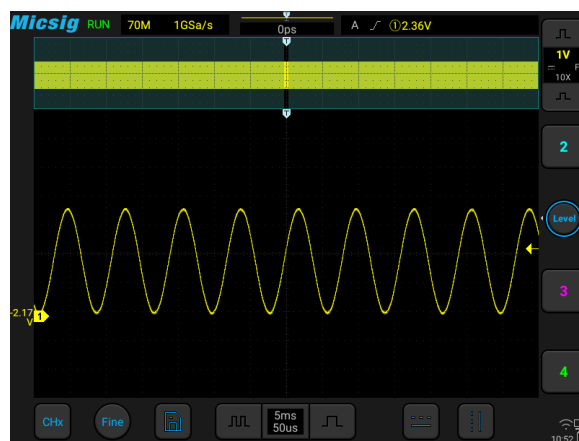

▲ The electronic faults can be complicated, by comparing the collected various waveforms, users judge faults by analyzing the timing and quantitative relationships between waveforms.

**▲ High Waveform Update Rate**

With a waveform update rate of up to 300,000 wfm/s, the ATO can easily capture unusual or low probability events.

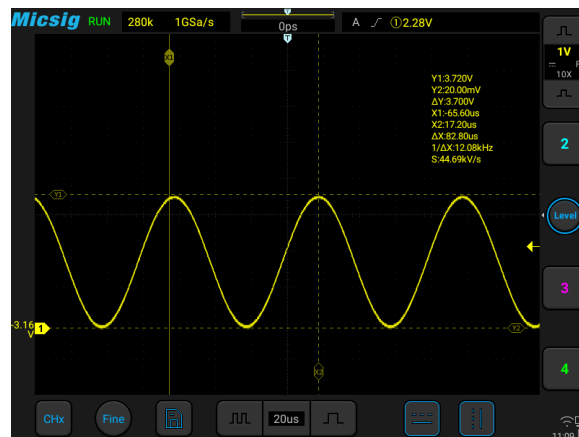

**▲ Ultra-deep Memory**

Using hardware-based Zoom technique and memory depth of up to 220Mpts, users to move and browse waveforms much easier and quickly zoom in to focus on the area of interest.

**▲ Powerful Trigger Functions**

Support Edge, Pulse, Logic, N Edge, Runt, Slope, Timeout, Video and Serial trigger, most intuitive trigger settings.

**▲ Convenient Cursor Measurement**

One touch to open horizontal and vertical cursors, each cursor can be moved separately or simultaneously.

**▲ Vertical scale fining**

By pinching two fingers apart on the screen, you can adjust the vertical scale as you like, no longer limited by the 1/2/5 step limit.

**▲ Serial Bus Decoding and Analysis**

Support RS-232/422/485/UART, LIN, CAN, CAN FD, I<sup>2</sup>C, SPI serial bus decoding and triggering options, display waveform and data at the same time.

## Specifications
